

## **ENVYSION INC. WINS PRESTIGIOUS CSIA APEX AWARD**

*Company named winner for most innovative technology product*

LOUISVILLE, Colo., June 6, 2008 -- Envysion™ Inc., a leading provider of web-based video management for surveillance and improved business processes, today announced it has won Colorado's Technology Association CSIA 2008 APEX Award for *Most Innovative Technology Product*. The award is presented to a Colorado technology company whose product consistently delivers verifiable business value. The product must demonstrate a high level of technical innovation and a sustained ability to survive in the marketplace. Envysion was recognized at an awards ceremony which took place June 5, 2008 at the new Exdo Event Center in Denver.

“Given the caliber of the other nominees for this award, we are especially honored to be recognized for the most innovative technology product in the state of Colorado,” said Matt Steinfort, CEO of Envysion. “Envysion offers customers the industry's first Managed Video as a Service (MVaaS), as our technology integrates video with Point-of-Sale (POS) and other types of operational data to provide businesses with a strategic tool that helps them better manage their operations.”

CSIA is the largest and most influential association in Colorado for the IT industry. Since the program's inception in 2000, CSIA's APEX Awards have expressed well-deserved recognition for the numerous technology company success stories and technical advancements produced in Colorado. Presented in eight categories, the awards celebrate outstanding leadership, support, unique innovations, and noteworthy community contributions on the part of the people and companies operating within Colorado's IT industry.

### **About Envysion**

Envysion delivers a *Managed Video as a Service* (MVaaS) application that enables organizations to leverage remote video to better understand their business and improve performance and profitability. The Envysion Video service provides easy to use remote viewing of live and recorded video from an unlimited number of locations. The service provides visual context behind business events and creates compelling training opportunities by integrating video with operational systems such as Point-of-Sale (POS). The service drives efficiency and highlights business issues through user defined reports and alerts. Unlike traditional video surveillance systems, Envysion Video is easy to install and manage across multiple locations and is constantly and seamlessly upgraded, letting users focus on their business. Target markets include restaurants, retail, hospitality, and financial services. The company was founded in 2004 and is based in Louisville, Colorado. For more information, visit [www.envysion.com](http://www.envysion.com) or call 303.590.2379.

### **About CSIA**

CSIA is the leader on behalf of the information technology industry in Colorado, providing connections, insight, advocacy, and competitive edge programs and services to help technology companies succeed and prosper. Since 1994, CSIA has been involved in legislative issues and public policy to represent the information technology industry in Colorado, and has provided a number of annual programs, events and connections to support business success. The organization's strategic mission includes work with the educational/academia community to increase the number and quality of students in math, science and technology. And, CSIA, is a proud founding member of the Advance Colorado Center and the only Colorado IT association in the national CRITA consortium of IT associations cross North America.
