

Buyer Tool: Top Ten Tips on MVaaS

Now that you've determined that Managed Video as a Service (MVaaS) can help drive double-digit profits increases for your organization, here are some guidelines for determining which provider to select.

Your MVaaS provider should:

- 1 Give examples of proven ROI
- 2 Feature an easy to use platform
- 3 Integrate to business data systems like POS
- 4 Offer customizable exception reports integrated to video
- 5 Provide access to unlimited users across your entire organization
- 6 Have a demonstrated track record of innovation
- 7 Provide automatic software updates for minimal IT overhead
- 8 Ensure a bandwidth aware solution that does not strain the network
- 9 Allow users to securely save and share video within the application
- 10 Offer customization with analog and IP cameras
