

## BACK OF HOUSE

Watch for environmental risks that can lead to slip-and-falls, and cover worker's comp liability claims.

## BACK DOOR

Verify vendor deliveries, review invoices, and monitor for boxes and debris to maintain safety requirements.

## GUEST ENTRANCE

Spot-check greeting time for guests, using motion search.

## EXTERIOR

Increase safety for crew members when they take the trash out at night.

## OFFICE

Monitor cash drops, closing procedures of counting drawers and tips.

## SERVER AISLE

Check for cleanliness, prep, and liability for slip-and-falls.

## FRONT COUNTER

Review exception reports for AARP or Military discounts, and view transaction alongside video to verify if customer was present.
