

Mobile App Experience

When you need video of your stores, you want a quick, easy-to-use solution. So smooth to use, you'll actually look forward to it.

Envysion offers a unified, video-first experience that gets you to your footage fast on your mobile device with native iOS and Android apps.

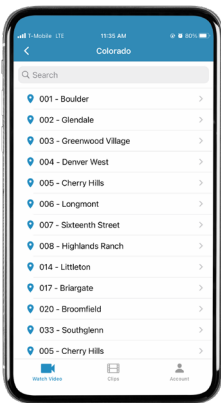

BE IN THE KNOW

Envysion's mobile app provides customers with complete visibility into their stores from mobile devices.

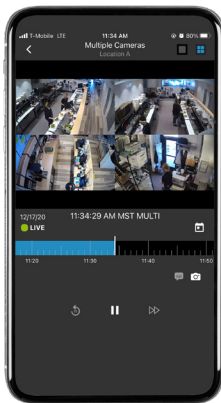

The app allows franchise owners, loss prevention managers, area managers, and general managers to **access live and recorded video, audio, reports, and incidents on the go**—providing the tools they need to maximize operational success. When achieving your goals is simple, you'll want to do more of it.

With Envysion, you'll get more done, faster—and you might not want to put it down.

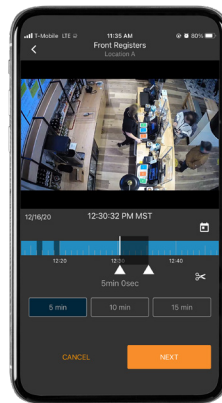

Get visibility into each of your store locations

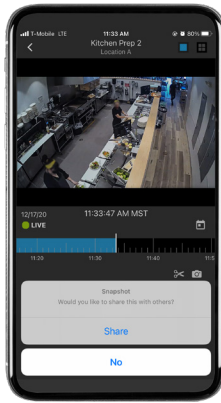

Watch video from up to four camera views at a time

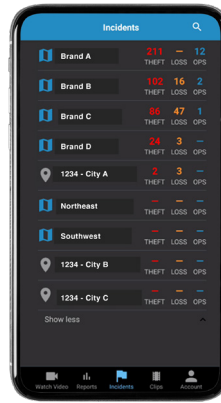

Create and save video clips from any camera to the cloud

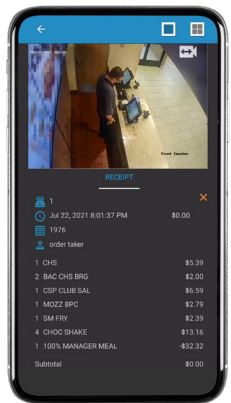

Take action by sharing an instant snapshot

Review incidents that need your attention

View receipt from report while watching video

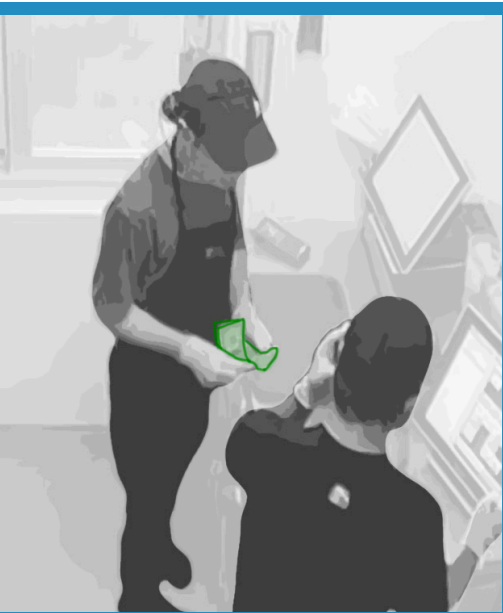

TRUSTED BY NAMES YOU KNOW

ACCESS REPORTS FROM EMAIL

Tap the “View” button to go straight to the report on your mobile.

- ▶ Subscribe yourself to **Daily Notifications** for the most urgent exceptions.
- ▶ Navigate to the complete report and review video context directly from your mobile Inbox.

NEED TO QUICKLY INVESTIGATE A SUSPICIOUS INTERACTION?

Use Envysion’s mobile app to easily look up recorded video captured during a specific day, time, and location.

Address customer complaints, help protect your brand image, and identify potentially fraudulent transactions.

“

Envysion detects behaviors that are unacceptable for safety reasons, theft concerns, or guest perception concerns. Envysion gives me a set of eyes that does much of the work for us so our team can focus on the business.
