

# Gain Peace of Mind and Transform Operating Culture with **Audit Programs**

Leverage a mix of audit programs to strategically reduce loss across your organization and improve performance in a subset of your restaurants.

## Comprehensive audit coverage THAT WORKS FOR YOU

### Reduce Loss Across your Organization

Insure yourself against theft and gain peace of mind across your restaurants with organization-wide Loss Prevention Audits.

### Improve Performance in Targeted Restaurants

Create a culture of accountability and achieve sustained food cost reduction with deep-dive Restaurant Performance Audits.

### Track Incidents to Ensure Accountability

Keep your finger on the pulse of verified incidents to ensure proper resolution by your staff and monitor trends by location or employee.

*Envysion helps me protect profits by ensuring orders are rung in and that the proper food is served. Envysion also helps by detecting behaviors that are unacceptable for safety reasons, theft concerns, or guest perception concerns. Envysion gives me a set of eyes that does much of the work for us so our team can focus on the business.*

# Ensure Resolution & Monitor Trends with Incident Management

Envision's intuitive Incident Management reporting suite makes it easy to quickly review the status of verified incidents and monitor incident trends by location and employee.

## Actionable Incidents at Your Fingertips

Review the status of flagged incidents across your entire organization, by location, or by employee in mere minutes with our easy to use Incident Management reporting suite.

## Arrive at Firm Conclusions with Irrefutable Video Evidence

See and hear the full story behind each flagged incident by watching the video side-by-side with the transaction receipt. Capture irrefutable evidence of the behaviors requiring coaching or termination to protect your business and create a culture of accountability.

*Envision's Loss Prevention audits augment our own analytics, giving us actionable intel with which we conduct investigations and resolve issues at the campfire stage, before they become forest fires. Envision's smart video systems and Loss Prevention audits are an excellent and complete solution for us.*
