

# 83% of GPS YTD Audit Results are Theft

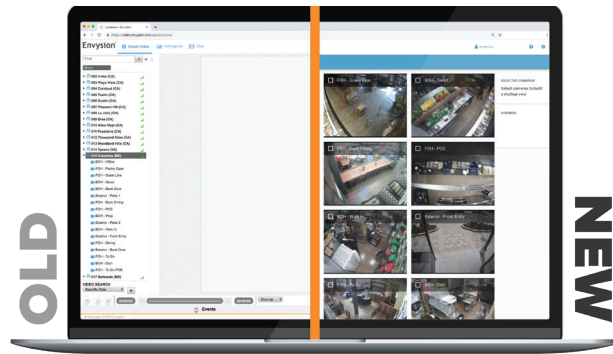

**What does a thief cost you?** Our customers value cases from \$4,000 to \$15,000 each. Increased awareness of theft and impropriety in your stores is essential to protecting your bottom line, and Envision is helping drive your management team to action. The proof is in the numbers, and **these great results come from auditing just 270 of your 411 stores.**

## See Beneath the Data with Video

Envision makes it easy to verify suspicious activity by showing exactly what happened.

Our new video experience allows your team to get more done, *faster*. A streamlined user interface and tighter, more intuitive controls allow you to focus on your stores rather than individual cameras and DVRs.

## Other New Updates

Improved Clip-Saving Experience

Faster Video Seeking

Create Clips from the Mobile App

Incident Management & User-Created Incidents

*Envision gives me a set of eyes that does much of the work for us so our team can focus on the business.*

Director of Operations, TOMS King

# Features Coming Soon

Our team of subject matter experts has walked in your shoes and knows the challenges you face. We're constantly working on new solutions to help you solve problems, be more productive, and exceed expectations. **Here's what you have to look forward to.**

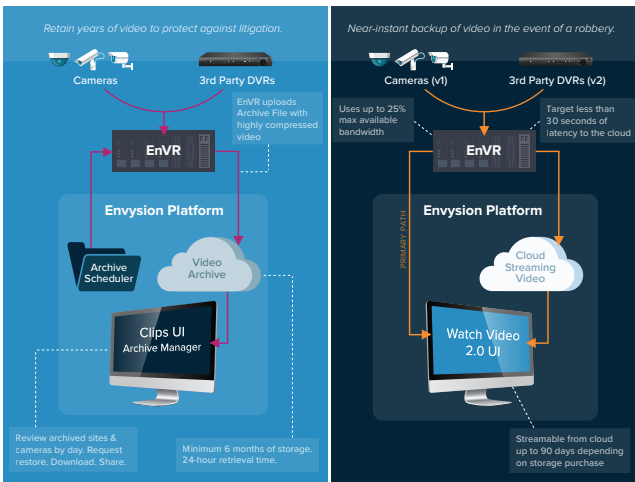

## Go Deeper with Your Data

We know the importance of data to the success of your stores, and we're always looking for ways to expand what you can do with it. We'll send you weekly insights to surface trends in your stores, highlighting potential areas of concern and specific transactions to review.

## Cloud Storage Solutions

You will soon have new options for protecting your business with cloud storage: One provides a near-instant **off-site upload of temporary video** in the event of a robbery. The other provides **years of video retention** to protect against potential litigation.

## A Space Efficient Hardware Solution

We know space is at a premium, so enabling cloud storage with your existing DVR hardware can be achieved with a small, fanless add-on about the size of a paperback book. It's easy to install and requires no on-site maintenance.
