

CAMERA SOLUTIONS for C-STORE

CAR WASH

I can keep an eye on my carwash that's unattended. My cameras are like having an extra employee.

FRONT DOOR

If a Report shows less than fifteen transactions overnight, a quick Motion Search can verify the store traffic.

POS

Associates may try to exploit your POS system. With Envysion Reports you can easily spot these patterns.

BACK DOOR

With Motion Search I can check that the store is opening on time by looking at the video's time stamp.

DRINK STATION

I can rely on my Cloud Archive to save footage for any slip-and-fall incidents, covering my state's statute of limitations.

AISLES

Quickly verify vendor deliveries.

EXTERIOR

Parking lot safety: Clips of any incidents are easily shareable with external sources.

PUMPS

I can jump to a specific day and time to validate a credit card transaction when I receive a chargeback.
