

# TOP 12 THINGS TO CONSIDER

## When Choosing a Managed Video Solution

1. Does it allow remote access into all of your cameras?
2. Can you retrieve footage remotely?
3. Does it integrate with your Point-of-Sale?
4. Are you notified of suspicious transactions at the register?
5. Does it alert you when a camera or DVR is down?
6. Does it allow you to backup your video into the cloud?
7. Can you search for motion in a specific area of your video?
8. Can you create, collaborate, and resolve issues within the platform?
9. Does your provider offer loss prevention audits or operational audits?
10. Can you share video externally while keeping it secure with permissions?
11. Can you see all of your locations with one login?
12. Can you reuse any current equipment and cameras?
