

Managed Video Service and Envysion Network Video Recorder (EnVR™)

The EnVR™, our NDAA-compliant networked digital video recorder with standard 3 year warranty, combined with Envysion's Managed-Video-as-a-Service (MVaaS) **provides you with access to your live and recorded video from all of your locations. Anywhere, Anytime.**

With innovative, patented bandwidth throttling technology and intuitive web and mobile applications, **Envysion helps you protect your people and profits, while driving operational excellence.**

EnVR™ FEATURES

- Dual monitor PVM support
- Multiple recording modes, including constant frame rate and motion-only (record only when motion occurs), to maximize storage capacity
- Patented Dynamic Bandwidth Throttling ensures Envysion never negatively impacts other business-critical systems on the network
- Web interface for local video access and direct clips download

MANAGED VIDEO SERVICE

- Watch Live and Recorded video via desktop browsers and our powerful mobile apps for iOS and Android
- Multi-up views support up to sixteen simultaneous views
- Powerful, flexible Search features to find specific video quickly
- Motion Search with annotated scrubber bar feature lets user highlight specific area of interest to find all instances of motion
- Save Clips to the cloud for longer-term storage and share your clips with both internal and external users (with optional password protection)
- Save Snapshots from video to create still images with watermarks
- Hierarchical locations organization
- User access and feature specification per role with unlimited roles and users per domain
