## Envysion Video Pro

Envysion Video Pro enables multi-unit operators to easily leverage remote video to better understand their business and improve loss prevention, operations, risk management and security efforts. The highly scalable, centrally managed and bandwidth sensitive service is designed for everyday use by 1000s of users across multiple departments without straining the IT organization or network.

Envysion Insight Pro

Envysion Insight Pro goes beyond Envysion Video Pro by integrating with point of sale (POS) systems to provide a robust set of exception reporting, alerting and event search capabilities. This advanced management tool allows users to easily monitor important metrics across all sites using exception-based reports and to instantly review the associated video context. These features enable operators to efficiently focus on actionable business insight and translate to a demonstrated 10-15% improvement in profitability.

Pro Features and Benefits

- **Remote Access**
  Gain an unfiltered view into operations from anywhere with an internet connection.

- **Easy-to-Use Web Interface**
  Maximize usage and minimize training time with an intuitive web browser interface.

- **Powerful Search Capabilities**
  Save time with video search by date/time, and specific motion.

- **Secure Video Clip Sharing**
  Create user groups and share video securely in the cloud. Burning video to DVDs is a thing of the past.

- **Scalable, Centralized Administration**
  Centrally manage and monitor who can access video and what they can access.

- **Automatic Upgrades**
  Automatically access the latest features. Eliminate the burden of software upgrades.

- **Support and System Health Monitoring**
  Receive notifications when a camera or EnVR® has gone offline. Highly trained customer service representatives troubleshoot issues seven days a week.

Additional Envysion Insight Pro Benefits

- **Seamless Point of Sale Integration**
  See the visual context behind high risk transactions, such as refunds and comps.

- **Automatic User-Defined E-mail Alerts**
  Receive an e-mail alert when a business rule has been violated (such as number of voids per day or discount percentage).
