

Reduce Theft & Loss Across your Locations with **Loss Prevention Audits**

You can never know in which restaurant a bad cashier might spring up. We find the needles in the haystack for you, so you can spend less time **searching** for loss issues and focus your time on **solving** them.

Reduce Loss and Increase Profitability **Across All Your Restaurants**

Take Action with Confirmed Cases

As sufficient evidence is collected for an employee, incidents are delivered immediately so you can quickly take action to prevent further loss.

Address Critical Loss Across Your Locations

Our auditors review transactions across all your restaurants to identify the most egregious instances of theft and deliver verified incidents directly to your inbox.

Expert Auditors with Extensive Experience

Cost-effectively expand (or establish!) your loss prevention team with our professionally trained and experienced auditors.

3x ROI

Envysion gives us instant insight into all our stores. The Loss Prevention audit services provides us a 3x ROI. We have gained efficiencies throughout the organization and continue to identify new use cases for the system to help limit losses and run our restaurants more efficiently. ”

Stop theft in its tracks

Our integrated exception-based reporting and loss prevention auditing approach filters each transaction across all your restaurants to flag suspicious events. Then, our auditing team reviews these events to verify incidents and build a case for your team.

REDUCE THESE AREAS OF THEFT AND LOSS

- ✓ No Rings, Under-ringing
- ✓ Refund Abuse
- ✓ Discount Abuse
- ✓ Food Theft
- ✓ Sweethearting
- ✓ Operational & Safety Issues

Envysion helps me protect profits by ensuring orders are rung in and that the proper food is served. Envysion also helps by detecting behaviors that are unacceptable for safety reasons, theft concerns, or guest perception concerns. Envysion gives me a set of eyes that does much of the work for us so our team can focus on the business.
