# Use Video to Reduce Loss, Mitigate Risk & Transform Operating Culture

The ugly truth is, restaurants are fraught with risk. Between theft, fraud, HR and legal issues, operational noncompliance, and poor customer experience, thousands of dollars are slipping from your bottom line each month. With Envysion's secure, scalable, accessible and easy to use Managed Video Solution, you can rest assured that your business is protected.

VIDEO VERIFICATION **ON DEMAND**

Gain complete visibility into each of your restaurant locations with our easy to use video management software.

Access your video anytime, anywhere
Whether you're logging in from your store or on the go via your mobile device, access to your video is always a quick click or tap away.

Watch, save & share video
Turn your video evidence into action by clipping, saving, and sharing.

Drill down with powerful search
Hone in on the exact interaction you need with video motion search, or filter recorded video by location, day and time.

TRUSTED BY NAMES YOU KNOW

Wendy's · Denny's · Chipotle Mexican Grill · KFC · Hardee's · El Pollo Loco · Taco Bell · Burger King · Louisiana Kitchen · Pizza Hut · Snooze an A.M. Eatery · Del Taco · Wing Stop

Your video can do more.
Use Video to Verify POS Transaction Data

Combined with **Envysion Reports** and **POS integration**, video becomes a powerful tool for verifying exceptions in your POS data. View video side-by-side with your POS transactions and take the guesswork out of loss prevention. Additionally, **Incident Management** and **User Created Incidents** help you keep track of issues, assign action items for your team, and log resolutions right from within the Envysion app. Expand your view of what video can do.

HD COMPATIBILITY

HD Analog Cameras

Enjoy high quality video while minimizing overall system cost and simplifying installation and maintenance.

HD IP Cameras

Capture the highest resolution video with advanced video features and network flexibility.
