# Improve Profitability by Changing Staff Behavior with *Restaurant Performance Audits*

Deter theft and achieve sustainable food cost reduction over the long-term by transforming the culture in your restaurants with deep-dive audits.

### Transform the Culture in your Restaurants to *Reduce Loss & Boost Profits*

Envysion

### Thoroughly Investigate Restaurants of Concern

Our team conducts a holistic review in a focused subset of your restaurants to identify theft, loss, and operational issues that are diminishing your profits.

# Ensure Accountability & Return on Investment

Track the life-cycle of incidents from creation thru closure to ensure proper resolution and secure your return on investment.

### Improve Performance Over the Long-term

We're not just catching a single event. We're changing the likelihood of future loss by addressing contributing behaviors head-on.

Envysion detects behaviors that are unacceptable for safety reasons, theft concerns or guest perception concerns. Envysion gives me a set of eyes that does much of the work for us so our team can focus on the business." Dennis Greve, Director of Operations, Burger King

## Protect your people and your profits

Transform struggling restaurants into top performers by leveraging our holistic analyses of theft, loss, and operational issues. We don't just look at theft—we also monitor operational issues and instances of loss, as each of these behaviors contribute to overall restaurant loss. In order to achieve sustainable cost reduction and performance improvement, you must address all three.
